DOCTORS MISTAKES

Are said often to be buried six feet under ground. But many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from livar or kidney disease, another from nervous prostration, another with pain here and there, and in this way they present alike to themselves and their easy-going or over-busy doctor, separate diseases, for which he, assuming them to be such, prescribes his pills and potions. In reality, they are all only *symptoms* caused by some uterine disease. The physician, ignorant of the cause of suffering, keeps up the treatment until large bills are made. The suffering patient gets no better in reason of the wrong treatment, but probably worse. A proper medicine like Dr. Pierce's Favorite Prescription, *directed to the cause* would have entirely removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery. It has been well said, that "a disease known is half cured."

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, [illegible] delicate system, [illegible] nal its [illegible] dis- [illegible] over- [illegible] bill- [illegible] tated teachers, [illegible] ters, seamstresses, "shop-girls," house-keepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequaled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nervine "Favorite Prescription" is unequaled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, St. Vitus's dance, and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the uterus. It induces refreshing sleep and relieves mental anxiety and despondency.

Dr. Pierce's Pleasant Pellets invigorate the stomach, liver and bowels. One to three a dose. Easy to take as candy.

GLACIA CALLA MOBBED.

According to a Portsmouth (N. H.) dispatch the scenes of the days when the people of New England stoned witches were re-enacted in that place yesterday when a thousand men, women and children mobbed Glacia Calla and later stoned the office in which she was sitting in conference with her attorney, John M. Bartlett.

She remained in the office three hours. During that time the mob outside grew larger and larger. They shouted and catcalled. Growing even more impatient, they began to throw snow balls and pieces of ice against the windows and shake their fists at the singer when they could get a glimpse of her through the panes.

Finally, it became necessary to call upon the police to disperse the crowd, as it was feared Miss Calla would suffer bodily injury when she came out.

The crowd accosted Miss Calla when she was near the lawyer's office and made a rush toward her. They surrounded her, many shouting insults, and she was entirely unable to advance.

Her destination was just across the street, but she could not reach it. Finally the police were called and forced a way through the crowd for her. The police were then kept in readiness in case they should be needed later, and were on hand to protect her when she left the office.

Mrs. Roy, in an interview, denied that she wanted her brother's death to appear as a murder in order to obtain his life insurance. She admitted that after meeting her husband in 1905, at the races, they lived together, and were not married until they came to America.

Paul H. Roy, accompanied by a lawyer, yesterday afternoon went to the office of the procureur general in Paris to put himself at the disposition of French justice if a demand for his prosecution should be presented by the American government. He was informed that nothing concerning him had been received. The opinions of experts are quoted in the press, to show that it is contrary to French custom to grant extradition against a Frenchman. If a charge is brought against a Frenchman his trial must occur in France.

Skin Disease of Twenty Years' Standing Cured.

I want you to know how much Chamberlain's Salve has done for me. It has cured my face of a skin disease of almost twenty year's standing. I have been treated by several as smart physicians as we have in this country and they did me no good, but two boxes of this salve has cured me.—Mrs. Fannie Griffen, Troy, Ala. Chamberlain's Salve is for sale by. W. F. Creighton and Richard Gibson.

NO PLANETS BETWEEN EARTH AND MERCURY.

That there are no planets between the sun and Mercury and that scientists will have to build up some other theory to explain why Mercury does not move in the regular orbit described for it are the conclusions Professor W. W. Campbell, the head of Lick Observatory in California, has arrived at from the development of photographic plates at Flint Island several months ago. They show the complete absence of any planet between the sun and Mercury. For fifty years astronomers have been disturbed by the problem that Mercury does not follow the path or orbit which should be its natural course, and which mathematical astronomy has outlined for it. That there was some force pulling it from its orbit and that this compelling force was the attraction of planets intervening between it and the sun was the general theory.

Professor Campbell last Tuesday said: "These photographic plates dispose of this theory and mathematicians will have to look elsewhere for forces. While the plates have not received their final development they make the absence of planets certain."

Kennedy's Laxative Cough Syrup acts upon the bowels and thereby drives the cold out of the system. It contains no opiates—it is pleasant to take and is highly recommended for children. Sold by W. F. Creighton.

CHARGES AGAINST MINISTER AND DOCTOR.

Rev. Clyde Gow, pastor of the Methodist Church South, at Elsberry, Mo., for whom a warrant was issued in connection with the death of Miss Elizabeth Gleason, granddaughter of the founder of the town, was arrested Thursday. A posse, headed by Constable Alvis, had been hunting for him since he left Elsberry Tuesday. He was taken to Troy, the county seat, and put in jail. Dr. W. A. Hemphill, a prominent physician, who was arrested when the coroner's jury returned a verdict that Miss Gleason had died from an operation, attends Rev. Mr. Gow's church. Mrs. Sarah Gleason, the girl's mother, testified at the inquest that her daughter told her on her deathbed she was dying from an operation by Dr. Hemphill, and said: "Mother, I have been deceived by Mr. Gow. He sent me to Dr. Hemphill."

ALEXANDRIA GAZETTE AND VIRGINIA ADVERTISER

SATURDAY EVENING, FEB. 29, 1908.

UNDER the heading "A portentous outlook" the United Mine Workers Journal says:

No one able to read the signs of the times can fail to be impressed with the protentous features that loom up from all sides on the industrial horizon. It does seem that captains of industry are determined to force a crisis in the affairs of this nation. Those who look beneath the superficial will see in this an attempt to punish the laboring classes, thus striking President Roosevelt over their heads, in order to discredit his policy. If, in order that industry shall go on unchecked, the food-poisoners, the bank and railroad wreckers must be permitted to carry on their schemes unchecked and unopposed, that fact cannot be too quickly known. The ruthless reduction in wages, the provocation methods employed to exasperate workingmen into strikes seem to point to the fact that we are approaching an industrial and political crisis.

The above words are ominous, and portend no good to the country. Labor and capital seem, unfortunately, to be moving farther and farther apart, and there is no telling what the end will be. The American Federation of Labor, however, will not take kindly to the movement inaugurated by the United Trades and Labor Council, of Cleveland, Ohio, to organize a political party in opposition to the present dominant parties in order to carry forward the programme of organized labor according to the assertion of Frank Morrison, secretary of the A. F. of L. Mr. Morrison, who is thoroughly conversant with the policies and doctrines of the organization, says that Mr. Gompers, who is in New York, has not been advised of the matter and that when it is brought to his attention he probably will disapprove such a project. Mr. Morrison says that the American Federation of Labor has no intention of assisting in a movement to perfect a political party. The United Trades and Labor Council however announced that if the A. F. of L. declined to consolidate with them in the movement it would call an extraordinary national convention on July 4.

CONGRESS has a scandal on its hands that may result in showing up the true inwardness of legislation where large interests are concerned. Congressman Lilley, of Connecticut, recently introduced a resolution for an investigation of the conduct of the Electric Boat Company of New Jersey and their predecessors, the Holland Boat Company, respecting the methods employed by said company in connection with past and proposed legislation before Congress. Mr. Lilley claims that "there are no tricks in the way of lobby work and influencing members that the Electric Boat Company are not adepts in." Whether the Holland Electric Boat Company controlled or influenced the committee on naval affairs as Mr. Lilley charges should certainly be investigated and why the submarine boats of the octopus type were selected and a number recommended by the department was doubled is of importance. But of still greater public importance is to know if any Congressmen have been corruptly influenced. The republican leaders are said to be desirous of suppressing the investigation which would react upon republican propects, but it would seem that publicity in the matter has gone too far for them to attempt to pigeon-hole the resolution.

AS STATED in yesterday's Gazette the Kentucky legislature on that day greatly to its shame elected a republican to represent that State in the United States Senate. The legislature is nominally democratic in both branches, but four members of the democratic party deserted and by joining the republicans overcame the wishes of a majority of the people of their State as expressed at the polls and put a republican in the seat in the Senate which, by all rights, belongs to a democrat. The four men who brought about this state of affairs should ever be held as traitors to their party and to their State. W. O. Bradley, who was chosen yesterday, is the second republican ever elected to the United States Senate from Kentucky.

HARDLY had the excitement incident to the murder of the King and Crown Prince of Portugal in Lisbon subsided when dispatches from Teheran announced the attempt by dynamite to kill the Shah of Persia. A dispatch from Buenos Ayres tells of a dynamite bomb being thrown yesterday against a carriage in which President Alcorta was driving. Fortunately the bomb failed to explode. Assassins are becoming bolder every day, and their work is by no means confined to the old world.

BECAUSE he whistled "The Merry Widow" waltz on a Boston street Henry Schmalzreid was arrested yesterday. The policeman who made the arrest said in court that Schmalzreid showed "no technique and little regard for the laws of harmony," whereupon the magistrate fined him $1,

THE anxiety of republicans for the laboring man is becoming more and more apparent as the election approaches, and even Senator Knox is running Senator LaFollette a close race with their employer's liability bills.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, D. C., February 29.

Further argument on behalf of the railroads petitioning for extension of time in which to comply with the provisions of the nine-hour law was made today before the Interstate Commerce Commission. All the testimony is now in, the three remaining cases being rushed through in the morning session. Approximately, fifty petitions have been received by the commission praying for extension of time. The commission is expected to render its decision by Monday. The law is to go into effect on Wednesday.

Speaker Cannon was made to feel quite keenly the power he wields as presiding officer of the House. Representative Sherman was in the chair temporarily today. Members near the republican cloak room were disturbing proceedings by their hilarity over one of Mr. Cannon's jokes. Sherman asked all members to cease conversation. The disturbance continued. He asked all to be seated. Mr. Cannon thought of another joke. "Will it be necessary for the chair to name gentlemen?" asked Sherman. "By jingo! Guess I'd better sit down," mumbled the Speaker and his crowd dropped to their seats like shot and a silence prevailed that would have been violently disturbed by the split of an infinitive.

The government presented one of its star witnesses today against the Standard Oil Company, in the person of Edward C. Armstrong, in the hearing now being conducted before Examiner Ferriss. Armstrong was formerly an employe of the Standard Oil Company, in what was known as the competitive department at Baltimore, Armstrong testified that he stole certain documents from the Standark Oil, which the government offered in evidence proving espionage over independent operators, and unfair methods of competition. "Did you think you were morally right and just in stealing these papers under your care?" asked Counsel Rosenthal, of the Standard. "According to the lessons I received in the Standard's employ, I believed it was morally right and just," replied the witness.

Having heard the Navy Department's side of the case, through Rear Admirals Converse and Capps the Senate naval committee today took the testimony of the officers who, by their lectures and published writings, are alleged to have given information to Henry Reuterdahl which he made the basis for his article criticising the construction of American battleships and other features.

Mr. Cannon, the all powerful Speaker of the House, said today after leaving the White House that he "Didn't know a damn thing" about the effort to secure the reduction or abolition of the duty on white paper, "and that he was sure there wasn't "a damn thing pending in the House that had any bearing on the matter." The President pledged himself, before the beginning of the present session of Congress, to secure the abolition of the duty for the preservation of the forests which are being devastated by the paper pulp factories as well as for the interest of the newspapers of the country that are being robbed by the "paper trust." The standpatters, with the Speaker at their backs, bid fair now to outgeneral the President in the fight, for the end of the session is in sight and no trace of the desired legislation has passed over the hurdles.

Hearing was begun today by the Interstate Commerce Commission in the case brought by the lumbermen of the northwest against the transcontinental and Pacific railways. The case is based on a monster petition, signed by 43 lumber companies, naming 20 railroads as defendants to charges of conspiracy in a general movement to exact exorbitant freight charges. The lumbermen claim that the rates are from 3 to 12 cents per hundred weight in excess of an equable charge for points inland and that, if forced to pay these rates, the entire industry will be jeopardized, if not destroyed.

All the port cities of the Pacific coast will have an opportunity of seeing the greatest fleet of war vessels assembled in Pacific waters, if the present plans of Secretary Metcalf are carried out. When Admiral Evans steams into Diego with his sixteen battleships and auxiliaries about April 20, he will probably be accompanied by several, if not all, of the vessels of the Pacific fleet. Stops willl be made on the way up the coast at San Pedro, the port of Los Angeles, and at Santa Barbara. The great display, comprising 45 ships of war and a score of auxiliaries, will be made at San Francisco. The fleet will later visit the cities on the way north to Seattle.

"There is no doubt in my mind that Roosevelt will head the republican ticket this fall. With Roosevelt and Bryan heading the two tickets, we'll not have much to choose for President. They are very much alike." With these words Herman Ridder, president of the American Newspaper Publishers' Association and of the New York Zeitung, sized up the political situation. He had just had a talk with the President.

Senator Martin, of Virginia, has introduced a bill for the construction of a direct road across the Potomac to Arlington and Fort Myer. The road is to go from the new Highway bridge across the river, thence to and through the reservation. It is to be not less than forty feet wide and macadamized for 24 feet. The bill is the one previously offered by Mr. Carlin in the House.

The remains of the late Crosby S. Noyes, editor of the Star, who died in Pasadena, Cal., were buried in Rock Creek Cemetery this afternoon. Services were held in St. Thomas' Episcopal Church at 2 o'clock.

Representative Carlin introduced a bill on Wednesday for the deepening of the channel of the Upper Machadoc creek between Dinothon and Brick House wharf in King George's county so as to conform to the depth of the channel between those points.

Mrs. Malcomb Hnfty has abandoned her suit for support against her husband, who, it is said has agreed to his wife's demand for $100 a month.

The Harper's Ferry Lime Company, which operates lime kins near Millville, Jefferson county, W. Va., made an assignment yesterday.

News of the Day.

A bomb was thrown at the carriage of President Alcorta, of Argentina, at Buenos Ayres, yesterday, but failed to explode.

Baroness Pauline Wallhofen-Lucca, the famous Austrian singer, died in Vienna, yesterday of cancer. She was born in 1841.

Edward Friedrich Droop, head of an old music house and a resident of Washington for fifty-one years, died at his home in that city yesterday afternoon, aged 71 years.

A patent office examiner, a Philadelphia lawyer and a York (Pa.) inventor have been indicted charged with patent frauds involving electric patents valued at $5,000,000.

The women's enfranchisment bill passed its first reading in the British House of Commons yesterday by 271 to 92. The suffragettes went wild when they learned the news.

"Thomas A. Edison is out of danger, the crisis is past and his early recovery is expected," was the bulletin issued from the Manhattan Eye, Ear and Throat Hospital, in New York, today.

J. Ogden Armour, President of Armour & Co., will be elected a director of the Illinois Central Monday when the delayed stockholders meeting is held in Chicago. He will succeed Stuyvesant Fish.

Capt. Elijah Frank Lambert, who had been acting as first mate of the iceboat Latrobe, dropped dead shortly after 6 o'clock last night while at the wheel of that vessel off Cut-off channel near Baltimore.

It is said that Rev. William Mercer Grosvenor, rector of the Church of the Incarnation, New York city, will succeed the Rt. Rev. Henry Yates Satterlee, who died in Washington last Saturday morning as bishop, of Washington.

In the presence of 200 Daughters of the Confederacy, Mrs. Margaret Jefferson Davis Hayes, of Colorado Springs, yesterday unveiled two windows placed in the Episcopal Church at Biloxi, Mass., to the memory of Mrs. Jefferson Davis and Miss Winnie Davis.

Thousands turned out to do honor to the memory of Father Leo Heinrichs, the priest slain by an anarchist in Denver, whose body arrived at Paterson, N. J. today. It is expected that thousands more will march past the coffin when the corpse is placed on view tomorrow in St. Bona Venture Church.

Mrs. J. C. Spires, wife of a farmer living near North Baltimore, Ohio, killed three of her children yesterday, fatally wounded a fourth, and then killed herself by taking carbolic acid, shooting, and cutting her throat. One of the children was drowned in a well and the others were shot and their throats cut.

Reports from the Rosita Mine explosion, near Usquitz, Mexico, say there has been a large loss of life. Some reports place the loss of life at from forty to ninety. The mine is owned by the Monterey Steel Company, and ordinarily employs a force of 250 miners, mostly Japanese and Mexican. The federal government has charge of the situation.

A dispatch from Nome, Alaska, says the frame of a giant mastodon has been found imbedded in the ground at Kobuk river. Parts of the skeleton visible above ground show that it will measure forty feet or more in length. The skeleton will be taken to Seattle. Goverment officials are preparing to unearth another enormous fossil, traces of which have been found.

Yesterday's issue of the Commoner contains William J. Bryan's reply to the letter sent him by James B. Forgan, president of the First National Bank of Chicago, bearing on the question of the safety of the banks. Mr. Bryan says, as he understands it, Forgan objects to a government gaurantee because it puts all banks on an equality. This, he declares, is selfish and unfair.

A woman and her three children were burned to death in Pittsburg early today in a fire which destroyed a boarding houre. Many other had narrow escapes from suffocation. The husband of one one of the victims jumped from a second-story window and has not been seen since. The fire started from an overturned lamp exploding in a room where a card game was in progress.

Sixtieth Congress.

Washington, Feb. 29.

SENATE.

The Senate was not in session today having adjourned yesterday till Monday.

HOUSE.

A favorable report on the Fowler financial bill was made to the House today by the committee on banking and currency. Mr. Prince (rep. Ill.), who presented the report in the absence of Chairman Fowler, asked that the minority in the committee be given 10 days to file a report.

JUDGE WILFLEY.

The President yesterday received the defense of Judge L. R. Wilfley—who is sitting on the bench of the Consular Court at Shanghai, China, and against whom charges have been filed. It is understood that Secretary Root has advised the President to exonerate Wilfley and send him back to his court. Judge Wilfley called at the White House during the Cabinet meeting but did not see the President.

"It is merely the dying gasp of an old regime," said Judge Wilfley. "The lawyers whom I have disbarred from my court are merely trying to get even. When I took charge of the court I found a set of grafters and rascals in charge of the situation. They believed that all they could make by swindling and robbing was theirs by rights and I simply cleaned them out."

THE FLEET.

The last mail they will receive before the American battleship fleet sails today for Callao, Peru, was delivered to the officers and men of the visiting armada yesterday. Nearly 175,000 pieces of mail were handled. A half dozen launches carried them to the various ships.

Several of the officers caught in Wednesday's landslip near the highest point reached by the Orya Railroad are still suffering from their experience.

Considerable uneasiness has been caused by the persistency of Admiral Evans' rheumatic attack. He was unable to attend the banquet on the Connecticut last night in President Pardo's honor and Admiral Thomas presided in his place.

Virginia News.

Colonel Meade Haskins died at his home at Blackstone Thursday night.

Mrs. Sarah Powell, of Spottsylvania county, died at her home on Wednesday, aged ninety-three. Her husband served in the revolutionary war.

The engagement is announced of Miss Virginia Asquith Kloman, of Warrenton, to Mr. Frank Arthur Robinson, of Portland, Maine.

L. P. Summers, republican collector of internal revenue for the western district, although summoned, in the Rhea case refused to come to Richmond until the meeting of the republican committee of which he was a member. He never reported to any officer of the assembly that he was ready to testify and was never discharged by the committee, but he did apply to the clerk of the Senate for his mileage and per diem.

A republican county mass meeting was held in Culpeper yesterday. S. Diener acted as chairman, and T. J. Eggborn served as secretary. Delegates were chosen to the district convention to meet at Alexandria, March 9, to select delegates to the republican national convention. To the State convention to meet in Lynchburg, April 8, delegates are also chosen. The resolutions adopted indorsed the administration of affairs by President Roosevelt, also the work of State Chairman C. Bascom Slemp for the party. A resolution was unanimously adopted favoring the selection of S. Diener as a delegate to the national convention at Chicago.

The Legislature.

SENATE.

The Senate yesterday passed the House bill to establish a board of charities and corrections, to consist of five persons appointed by the Governor. The members of the board serve without compensation, though the bill carries an appropriation of $5,000 to cover expenses and the salary of a secretary.

The Byrd liquor law, has been practically agreed to in the Senate, and the bill is to pass today. The Senate put in several amendments, none of which are much more severe than the original bill. The measure will now go back to the House.

House bill providing for the establishment of a Board of Charities and Correction, was passed. The appropriation had been cut down from $7,500 to $5,000 by the House.

HOUSE.

The House yesterday finally adopted the general appropriation bill. The bill as recommended by the finance committee is hacked by many amendments.

Any person who informs on any person in Virginia who sells intoxicants illegally will, if the person so selling is convicted, receive half the fines in the case. A bill to this effect passed the House yesterday.

The time limit of the general assembly is Saturday of next week. It is not expected that the body will be in session right up to the midnight hour. It is not expected that the legislature will really adjourn before the week following. After March 7 the members will serve without pay.

The House passed the following bills: Prohibiting the sale of wines, spirituous and malt liquors in local option districts.

To regulate the employment of children in factories, workshops, mercantile establishments and mines in this commonwealth, and to prescribe penalties for violations of such regulations.

To prevent the manufacture or sale of adulterated misbranded, poisonous, or deleterious foods or liquors, and to repeal an act to prevent the sale of adulterated and misbranded food in the State of Virginia, approved February 27, 1900.

Providing for the funeral expenses of Confederate soldiers or widows who are now, or hereafter may be, enrolled on the pension roll of this commonwealth.

To make an appropriation to provide for the erection of a monument on the battlefield of Gettysburg, Pa., to commemorate the services of Virginia troops in the battle on that field.

To authorize the supervisors of each county and the council of each city to make a special levy for the support and maintenance of maimed and disabled Confederate soldiers, or the needy and indigent widows of the Confederate soldiers, in their respective counties and cities.

To incorporate the town of Haymarket, in Prince William county.

To incorporate the town of Clarendon Heights, in the county of Alexandria.

THE GOVERNOR'S MESSAGE.

The Governor has transmitted a message to the General Assembly, containing the report of the Virginia Commission to the Jamestown Exposition. The Governor recommended that the Virginia Jamestown Exposition Company be authorized to sell, at the best price obtainable, the Virginia building and furniture and the lot upon which it is situated, the money derived from the sale to be used to pay any indebtness which may exist against the Virginia commission to the exposition, the residue to be used for installing in Richmond the very valuable mineral exhibit presented to the State by the Virginia Mineral and Timber Exhibitors' Association. The commission also has a very valuable collection of fish, game and other exhibits to turn over to the State.

Neglected Colds Threaten Life.

[From the Chicago Tribune.]

"Don't trifle with a cold,' is good advice for prudent men and women. It may be vital in the case of a child Proper food, good ventilation; and dry warm clothing are the proper safeguards against colds. If they are maintained through the changeable weather of autumn, winter and spring, the chances of a surprise from ordinary colds will be slight. But the ordinary light cold will become severe if neglected, and a well-established ripe cold is the germs of diphtheria what honey is to the bee. The greatest menace to child life at this season of the year is the neglected cold." Whether it is a child or adult, the cold slight or severe, the very best treatment that can be adopted is to give Chamberlain's Cough Remedy. It is safe and sure. The great popularity and immense sale of this preparation has been attained by its remarkable cures of this ailment. A cold never results in pneumonia when it is given. For sale by W. F. Creighton and Richard Gibson.

Today's Telegraphic News.

The Fleet.

Callao, Peru, Feb. 29.—The United States battleship squadron sailed from Callao harbor for Magdalena bay at 10:30 a. m. today. The vessels passed out to sea in single file, each thundering the salute of twenty-one guns as it drew alongside the Peruvian cruiser from which President Pardo reviewed them at the harbor entrance. It is expected the run to Magdalena bay will take about a forthnight.

Callao, Peru, Feb. 29.—The American battleship fleet was ready long before dawn for its departure from Callao.

Neither officers nor men spent many hours in their bunks during the night. The festivities on the flagship continued until 12, and after that hour there were still many details of the final work of preparation to be attended to.

Both among the officers and in the crews there is beginning to be much speculation concerning the fleets ultimate destination. The concensus of opinion seems to be that about six weeks will be spent on the coast and that all the ships not destined for permanent service in Philippine waters will then return to Hampton Roads by way of the Suez canal.

President Pardo, of Peru, expressed the utmost delight at his reception on the flagship last night. He especially enjoyed his visit to Rear Admiral Evans' quarters, the latter being kept to his room with rheumatism.

The President's answer to the admiral's thanks for the fleet's royal entertainment at Callao and Lima was as warm as words could make it and the Peruvian executive and American naval commander parted with the most cordial expressions of mutual good will.

From the deck of the flagship the President later signalled his compliments to the other war craft. He landed at midnight to be ready for the review of the fleet on its departure from Callao harbor today.

More than 700 Peruvians attended the reception on the Connecticut during the afternoon and evening. Many also paid visits to friends among the officers on the other ships.

It is expected the armada will reach Magdalena Bay March 14 or possibly March 13, a day ahead of its schedule.

China and Japan.

Pekin, Feb. 29.—Yesterday's rumors that Japanese war vessels are on their way to enforce a demand for the surrender of the Tatsu Maru, seized by China on the ground that it was smuggling arms to Chinese revolutionists, now simmer down to an order from Tokio to the commander of the cruiser Izzumi to hasten from Shanghai to Hong Kong to investigate the case.

Even this move is accepted here, however, as amounting to a demonstration against the seizure and the Japanese foreign office's denial that it has anything of the kind in mind is taken as merely perfunctory.

Tokio, Feb. 29.—Japan has issued no ultimatum to China concerning the latter's seizure of the Japanese steamship Tatsu Maru with a cargo of arms off Macao, and the sailing of the cruiser Izzumi from Shanghai for Hong Kong is not intended as a threat, according to high officials of the foreign office here.

Nevertheless the government does not pretend that it will not resort to force if necessary to secure compliance with its demand for the release of the steamship, indemnity and an apology. The Chinese request that the affair be submitted to a mixed court has been refused unless preceded by compliance with these terms.

The foreign office believes China will yield, however. Unofficial advices from Pekin are that the Japanese flag has already been restored to the Tatsu Maru.

The Portuguese minister at Pekin supports Foreign Minister Hayashi's claim that the vessel cleared regularly from Kobe with a consignment of arms, not for Chinese rebels but for a Portuguese merchant of Macao, and that the seizure was in Portuguese waters.

Examination of Bomb-thrower.

Buenos Ayres, Argentina, Feb. 29.—Solano Regis, the half-blood, who threw a bomb at President J. Figueroa Alcorta as the latter alighted from his carriage in front of his residence early last night, is being examined by a commission of alienists today.

Though it is believed he will be found insane, the police think it possible anarchists may have taken advantage of his mental infirmity to use him as a tool in an assassination plot. He is being closely questioned to determine whether there is ground for this suspicion, but thus far sticks to his original story that he had no accomplices.

The other men arrested immediately following Regis's attempt are held pending the result of the would-be assassins examination. Their identity has not yet been fully established, and there is no case against them beyond the suspicious manner in which they were lurking about the President's home. That the bomb failed to explode is attributed to its construction. It was made from a paint can, but the nature of the explosive it contained has not been definitely determined owing to the difficulty of handling it safely.

Alcorta was a marvel of coolness, turning after he had kicked the bomb to a distance, to reason with Regis, to whom he was talking when the aide-de-camp, Captain Anabis, seized the man.

Thaw Now Willing for Separation?

New York, Feb. 29.—That Harry Thaw, who has hitherto insisted that he will not hear of a divorce or annulment of his marriage unless Evelyn herself tells him she desires it, is now willing to acquiesce in proceedings for a separation is asserted by a New York afternoon paper today.

Messages from Pittsburg today say Harry Thaw has refused to pay the attorneys' fees and other expenses of his last trial or to make any settlement at present upon his wife. "I made no bargain to be sent to Matteawan," he is quoted as having said, "and no lawyer will get any money from me until I get out. I bargained to be acquitted—not to be sent to an asylum."

Parkhurst on Saloons.

New York, Feb. 29.—"If the people demand it, saloons should be allowed to sell liquor on Sunday." This statement, attributed to the Rev. Chas. H. Parkhurst in an interview today, has already stirred up the greatest interest among church people. It promises to make more trouble for Dr. Parkhurst before the remark is forgotten, as several ministers have intimated their intention to preach on the subject tomorrow.

Dr. Parkhurst, who is pastor of the Madison Square Presbyterian Church, is quoted with the unusual remark in an interview on prohibition in which he voiced some sentiments not in the customary vein of prohibition advocates.

"While I will not say prohibition by statute is impossible," the interview continues, "I do know that no prohibitory statute enacted in the past has actually prohibited the traffic in liquor.

"The logical step for prohibitionists in New York State is to bend their energies to enforce laws already on the statute books and which are not now enforced.

"If the community demands an open Sunday, I would even favor this. But let the laws be enforced, whatever they may be, for if laws mildly restricting the sale of liquor do not have public sentiment behind them, there is a small chance that an absolutely prohibitory law would receive the endorsement of the people, which is essential to its enforcement."

The Attempt on the Shah's Life.

Teheran, Feb. 29.—Several persons suspected of complicity in yesterday's plot to blow up the Shah with a bomb were arrested today. The police will give out no information, but it is rumored that one or two of the prisoners are men of high rank.

Much apprehension exists that the attempted assassination marks a renewal of the troubles which recently convulsed Persia, a result of the liberals' resistance of the Shah's efforts to override the constitution granted by his predecessor.

Though the ruler has ostensibly acquiesced in a constitutional government, many of his subjects think he still plans a return to absolutism at the first favorable opportunity. Besides the three members of the Shah's suite killed and the twenty-one wounded by the bombs, it is now learned that a dozen or more persons in the crowd of spectators which lined the street were wounded by shots the guard fired into the throng directly after the explosions.

Teheran, Persia, Feb. 29.—Another bomb was exploded in a secluded street here today and two persons were killed. The outrage is not yet fully explained, but is believed to have been accidental, the bomb having probably been intended for use elsewhere.

Explosion and Fire.

New York, Feb. 29.—Hundreds of families were forced to move into the street by a fire which followed an explosion at the National Sulphur Works today, burying twelve men in the ruins. The explosion occurred in the grinding room on the second floor, and a portion of the roof was blown off and landed on a passing coal cart, burying the horse and driver.

The injured were rescued from the burning building and taken to the Williamsburg Hospital nearly suffocated by the choking fumes of the sulphur, and it is thought one will die.

The fire completely demolished the two-story brick house and besides destroyed hundreds of tons of sulphur. One of the walls was rent for twenty feet, and at one time threatened to fall. An estimate places the damage at $100,000.

A Bryan Rally.

Boston, Feb. 29.—Prominent democratic leaders from all the New England States met today in Fanuil hall to attend the meeting of the New England Progressive League. The gathering was unqualifiedly a Bryan rally and the speeches teemed with praise of the Nebraska statesman. Col. Alexander Truope, of New Haven, who made the principal address of the day, openly voiced the purpose of the meeting when he said the object of the united democrats of New England was to arrange to send a solid New England delegation instructed for Bryan to the Denver convention. Other speakers voiced the same sentiment and explained steps being taken in their respective States to accomplish this purpose.

Approached King's Carriage.

Madrid, Feb. 29.—Except that their prisoner is a dangerous anarchist, the police refuse to give out a word concerning the man arrested last Sunday night for approaching King Alfonso as the latter's carriage pulled up at the Comedia Theatre. There is no doubt, however, that they think he was plotting the king's assassination. The case has been kept so quiet that it is only within a few hours that it has been possible to account for the arrest.

New York Stock Market.

New York, Feb. 29.—The character of the news and street rumors this morning hastened the regular week-end settlements by the room traders. On their somewhat hurried selling prices a number of the active issues sustained declines of one point or more during the first hour. The changes in most of the inactive stocks were irregular, generally in the shape of fractional declines.

Mine Disaster in Mexico.

Sabins, Cohulia, Mex., Feb. 29.—Seventy-six persons were killed outright and there is little hope of rescuing the two hundred other miners who were imprisoned when fire damp exploded in Montery Steel Company's mine at La Rosita Thursday. Because of the gases the government authorities who have the rescue work in charge have been unable to enter the mine.

Japanese and Indians Fight.

Mexico, Feb. 29.—Three Japanese and a considerably larger number of Indians are reported dead following a fight between the Mikado's subjects employed on La Martinez' Las Milpiras Hacienda and a band of Yrquis. The Japanese numbered only twenty and the Indians more than 100, but the latter were beaten off after a desperate battle.

Killed in Duel.

Beattyville, Ky. Feb. 29.— A telephone message received here today says that John Hamilton and a man named Bowles, were instantly killed and Geo. Frazier and Richard Spicer were seriously wounded in a pistol duel on Ross Creek last night. The trouble came up over the children of the parties.

Boston Woman Killed.

Los Angeles, Feb. 29.—Mrs. Charlottee L. Noyes, a wealthy Boston tourist, a member of the Eastern Star, was shot and killed early this morning in her luxurious apartments by W. P. McComas, a well-known local mining engineer and a Shriner. McComas announced the crime to the police and said the woman attempted to throw sulphuric acid at him. He declared he shot in self-defense. The bullets entered the woman's heart.

McComas told the police he fired a shot to frighten Mrs. Noyes. The police were unable to fine any trace of an acid bottle in the woman's rooms. The couple spent their afternoons the last two weeks at the Arcadia race track. In that time they are said to have lost $5,000 between them. It is said they quarreled over money. The woman was 35, handsome, cultured and an elegant dresser. McComas is 40, and wealthy.

Mine Worker's Convention.

Indianapolis, Ind., Feb. 29.—From the national headquarters of the United Mine Workers today a call for a special national convention of the miners is being hurriedly sent out to every State in the union.

The men will meet in Indianapolis March 12. It will decide whether to "Strike" or suspend. A strike would mean that 212,000 men would quit work, 160,000 of these are in the central competitive fields.

HELD FOR GRAND JURY.

At a prelimi[illegible] afternoon, at Mor[illegible]ty for Bluemont, [illegible]ures, tickets, Pull-istrate Griggs, John Lam[illegible] Ticket dered held for the grand jury of Princess Anne county on the charge of maliciously maiming his illegitimate child Elizabeth Hope, of Sanford, N. C., with whom he has been living, was ordered held as a witness for the State.

When confroted with the evidence that she was not married to Lambeth, the Hope woman confessed, telling a tale of cruelty and inhumanity that so incensed the people of the community that lynching was threatened. Commonwealth Attorney White conducted the couple to Norfolk for safe keeping.

The woman testified that while in a drunken rage Lambeth snatched her eleven-months-old child from her arms, threw him into the open fire, and would not allow her to take him out. Almost crazed by the screams of the child, the mother said she attempted to rescue it but Limbeth knocked her down four times. He finally let her pull the baby from the fire. Amputation of both legs above the knee was necessary to save the child's life. Lambeth was fined in Norfolk for exhibiting the maimed child for the purpose of soliciting alms.

WHAT CBUSES DANDRUFF.

Greatest European Authority on Skin Diseases, Says It's a Germ.

The old idea that dandruff is scales of skin thrown off, through a feverish condition of the scalp, is exploded. Prof. Unna, Hamburg, Germany, European authority on skin diseases, says dandruff is a germ disease. The germ burrows under the scalp, throwing up little scales of cuticle, and sapping the vitality of the hair at the root. The only hair preparation that kills dandruff germs is Newbro's Herpicide. "Destroy the cause, you remove the effect." Not only cures dandruff, but stops falling hair and permits a luxuriant growth.

REPUBLICAN MEETING.

A meeting of republicans of this city was held last night in Sarepta Hall. About 25 white men were present and 9 colored men.

W. P. Graves, chairman of the city committee, called the meeting to order after which he was chosen to preside and W. H. P. Kelley was elected secretary.

The chairman stated that a meeting of the qualified voters of the republican party had been called for the purpose of selecting a chairman of the city committee and of electing delegates to the district and State conventions.

There was no contest for these positions and the nominees were elected by unanimous votes.

Messrs. Donald Aitcheson, R. Emmett Kelley, W. P. Graves and J. A. Eggborn were selected delegates to the district convention which meets in Alexandria on the 10th proximo.

Messrs. W. H. P. Kelley, J. L. Crupper, R. L. Walters and J. A. Eggborn were elected delegates to the State convention which meets in Lynchburg April 9. Upon motion of Mr. Eggborn all delegates will have the right to name their alternates.

The following city committee was elected: First ward, Donald Aitcheson and W. P. Graves; Second ward, R. H. Hancock and S. A. Forrest; Third ward, J. L. Crupper and John A. Ewald; Fourth ward, Frank Evans and R. Emmett Kelley.

Mr. J. A. Eggborn was subsequently elected chairman of the city committee. There was no opposition to him. Mr. Graves had declined to serve any longer.

Mr. Thomas Bayne offered the following:

Be it resolved: By the republicans of Alexandria in mass meeting assembled pursuant to the call of the city chairman and in conformity with the plans of organization, that professing fealty to the national republican party and adherence to it's principles, do resolve and declare, that in the person of Theodore Roosevelt the party has given to the country one of it's greatest Presidents.

We admire and commend his fearless devotion to duty and impartial enforcement of the laws, and further declare: That time having amply justified the wisdom of a protective tariff and believing that the present tariff law has outlived the period of its greatest usefulness and should be revised and equalized to meet the changed conditions we favor a declaration to this effect in the forthcoming party platform at Chicago, and further, that in Charles E. Hughes, governor of the State of New York, we recognize one whose great abilities coupled with his well-known conservatism is eminently qualified to carry out these great reforms advocated by the present administration with the least disturbance to business and consequent hardship to the wage-earners.

Mr. Graves offered the following:

1st. That the republicans of Alexandria, Virginia, assembled, do endorse the acts and recommendations of our peerless President, Hon. Theodore Roosevelt, and that we are proud of the record he has made.

2nd. That while we admire and approve of that eminent statesman, Hon. Wm. F. Taft, and believe, if elected, he would make us a model Executive, satisfactory to the American people, and would endeavor to carry out the policies of the present administration; yet, knowing that he would inherit, justly or injustly, the ill-will of a large body of republican voters, we fear should he be nominated, he would be unable to carry the pivotal States, therefore,

3rd. Be it resolved, that we love the republican party better than any man in it, and too well to have it put up a candidate to be defeated.

4th. Gov. Hughes, of New York, inherits none of the weaknesses or animosities possessed by Mr. Taft; his policies are identical with Mr. Roosevelt's, and without doubt he would be triumphantly elected. Therefore, our delegates are instructed to use all honorable means for his nomination and election,

5th. That while we are protectionists, our industries have outgrown the needs of our present tariff laws—are not infant industries any more, and do not need its fostering care any longer—and we therefore earnestly hope the tariff may be revised in the interest of the consumer by its friend, the republican party.

Mr. Graves addressed the meeting and urged the adoption of the resolutions. He stated that Taft's weakness was due to the fact that it is reported that he is being put forward as President Roosevelt's candidate, and the American people are jealous of their prerogatives; that his hand in the Brownsville affair might cost the party the colored vote, and that the Secretary of War's decisions while on the bench in Ohio had given offense to organized labor and this element "had it in for him."

Harry B. Quinn and Joseph L. Crupper spoke in opposition to an instructed delegation.

The resolution that was finally adopted indorsed the policies of the President and recommended a revised tariff, but by a vote the sections of the resolutions endorsing Hughes and making reference to Taft were stricken out. This action was taken on Mr. Crupper's motion.

The meeting was subsequently addressed by Charles I. Simms, of Alexandria county, who spoke optimistically of the prospects of the republican party. Among other things he said there was a likelihood of the Fifth Virginia district becoming republican.

The meeting adjourned at 9 o'clock.

Another republican meeting was held last night at No. 427 south Royal street. Those assembled elected full delegations to the district and State conventions. They also elected T. M. Watson chairman of the city committee. Magnus L. Robinson was chosen a delegate to carry the fight to the Chicago convention. Those composing the gathering were colored men, who claimed that they were denied admission to the meeting in Sarepta Hall. As stated above, there were nine colored men at the meeting at the latter place.

POLICE COURT.

[Justice H. B. Caton presiding.]

The following cases were disposed of this morning:

A young man, suspected of petit larceny, was dismissed.

Benjamin Hamilton, colored, suspected of lunacy, was held for further examination.

Henry Scott, colored, charged with carrying a pistol, was fined $25.

Mary Scott, colored, charged with disorderly conduct, was fined $5.

REVIVAL SERVICES.

The service at the Washington Street M. E. Church South, last night, was the most impressive of the services. Rev. Mr. Price preached a strong sermon. The singing was led by a large chorus. Mrs. Hulfish sang the Men's Meeting song, "He will Hold me Fast." There were four professions of faith in Christ.

Tomorrow the communion will be omitted and Mr. Price will peach at 11 a. m. and 7:30 p. m. He will also address the Men's Meeting.

SECOND PRESBYTERIAN CHURCH

Moses before Pharaoh will be the phase of the great law giver's life which will be studied at the Second Presbyterian Church tomorrow night. Rev. J. R. Sevier is delivering a course of lectures on the notable men of the Old Testament.

Children's services will be held in the Second Presbyterian Church at 3:30 o'clock tomorrow afternoon. These services are very interesting.

CHARGED WITH RECEIVING STOLEN GOODS.

Frank Parker was arrested this morning on suspicion of receiving stolen property. The arrest grew out of the finding of about $250 worth of cable belonging to the Western Union Telegraph Company in Parker's yard, a few days ago. Parker is also charged with purchasing a hog for $1.50 which had been stolen from James Patterson.

"UNCLE REMUS."

An evening with "Uncle Remus" will be given at Christ Church Parish Hall on Monday night next at 7:30 o'clock by Mr. T. W. Lawrence for the benefit of the Braddock Heights Mission. Mr. Lawrence tells the Uncle Remus stories in an inimitable manner and all who attend will enjoy a delightful evening.

FINED TWENTY-FIVE DOLLARS.

Henry Scott, a colored boy, was before Justice Caton in the Police Court this morning charged with carrying a loaded pistol at a ball at the colored Odd Fellows' Hall on the night of the 22d instant. He was fined $25. Mary Scott, his sister, who was charged with disorderly conduct at the ball, was fined $5.

DONATIONS.

Among the donations to the Elks' Carnival, not previously acknowledged, were a barrel of flour by the Washburn-Crosby Milling Company and 36 pounds of coffee by the Blanke Coffee Company, through Mrs. Jacob Brill.

MEETING FOR MEN.

Rev. Vance Price, of North Carolina, will address the men's meeting tomorrow afternoon at 3:30 o'clock. Subject, "Keeping the Heart." Mr. J. T. Preston will sing a solo. All men invited.

CONGRESSIONAL.

In the Senate yesterday the bill authorizing the acceptance of Andrew Carnegie's gift of $30,000 to establish a branch library at Takoma Park was passed.

The consideration of the Indian appropriation bill was completed.

Senator Tillman offered a resolution calling upon the Secretary of the Treasury for an investigation of charges that the Choctaw court had been corrupted. An objection from Senator Warren laid the resolution on the table.

After a brief executive session, in which the nomination of a son of Supreme Court Justice Day to be a United States attorney in Ohio was confirmed, the Senate adjourned until Monday.

In the House a bill facilitating the issuance of patents was passed.

An amendment stricken out of the army appropriation bill Thursday, which gave a substantial increase in pay to enlisted men, was reinserted.

There was further consideration of the army appropriation bill without completing the bill.

FIVE CHILDREN AT BIRTH.

Five perfectly formed children were born at Steubenville, Ohio, yesterday, to Mr. and Mrs. George Campbell. Three of the babies died within an hour after birth. One boy and one girl will live, it is said. Three of the children were boys. Mrs. Campbell weighs less than 100 pounds. The combined weight of the infants was 28 pounds. Physicians declare the case to be one of the most remarkable known to the profession. Campbell, who is a mill worker, has four brothers. To the family of two of these twins have been born, and each of the other brothers is father of triplets. Campbell's first wife died after becoming the mother of triplets.

War in Morocco.

Casa Blanca, Morocco, Feb. 29.—General D. Plaster of Paris Bananas.

Bunches of bananas that are absolutely unfit for food hang out in front of the wholesale produce commission houses. Some of them have remained there until they have grown rusty with age.

"Couldn't get a finer looking bunch than that," said one of the dealers the other day, "even if it is plaster of paris. We used to put out the real article for a sign, but the peddlers who came down here had a way of pulling one or two out of the bunch that happened to be hanging there on the hook. The small boys, too, had a way of making a grab for a banana or two. By the time the bunch was on duty under the awning for an hour it was no longer presentable to the aesthetic sense. So we began to cultivate the make believe article, which is not quite so palatable, but just as good for advertising. And even at that some youngster in his haste will grab plaster of paris fruit and get away with it before he realizes that he has made off with something bad for his digestion."—New York Herald.

A Meal of Locusts.

In the West Indies the negroes eat freely of the big grub found in palm trees. The fat, white morsel, which they call "grugru," is not cooked or salted. The aborigines of Australia live almost entirely on a butterfly known as the bugong. The flies appear in batches on the rocks, and the natives smother them with smoke from fires built below. It is said that a Hottentot, with an appetite made sharp by the simple life, can devour 300 fat locusts at a sitting and feel better satisfied than if he had paid $8 for a ten course dinner. The Arabs dry the locusts and pulverize them into flour for breadmaking purposes. The Moors make a stew of them, and after boiling in water for a few minutes they are eaten with salt, pepper and vinegar. The locusts found in Central Africa are enormous, and the native negroes cut them in two and fry them in fat and find them not only appetizing, but nourishing. A flight of these big locusts is a matter of tribal thanksgiving.

Snakes With Two Heads.

I have lately been assured by more than one of my friends that they have seen in northern India snakes with two heads—i. e., without a tail, but with a second and perfectly formed head in the place where the tail ought to be. They assure me that there are specimens in northern India museums and that these freaks of nature are frequently found by the natives. The rider is added that the natives declare that each head lives and performs active service for six months in the year in turn. The snakes are said to grow to about three feet in length. I myself have killed a small snake with two heads, but these were both at the same end of the reptile, a very different matter, which is, I believe, a well known freak and in the same category with two headed calves.—Pioneer.

Man and His Dress.

The well dressed man wears clothes that no one ever notices; at business, except in the very warmest weather, usually dark. No one ever notices clean linen, while linen soiled ever so slightly is very conspicuous. No one ever notices a hat unless it is of ultra shape, dirty or shabby. No one ever notices shoes unless they are loud or need blacking or are run down at the heels or shabby. No one ever notices clean finger nails, while those needing attention are always conspicuous. The man should not be lost sight of by the conspicuousness of his clothes, either from being overdressed or shabbily dressed.—Batten's Wedge.

The One and the Naught.

Oliver Wendell Holmes once sent two poetical letters to the "postoffice" of an Episcopal fair at Pittsfield, Mass. In one of them the first stanza was:

Fair lady, whosoever thou art,
Turn this poor leaf with tenderest care
And hush, oh, hush, thy beating heart.
The one thou lovest will be there.

On turning the "poor leaf" there was found a dollar bill, with some verses beginning:

Fair lady, lift thine eyes and tell
If this is not a truthful letter.
This is the one (1) thou loveth well.
And naught (0) can make thee love it better (10).

Occultism.

It is noteworthy that supernaturalism prevailed just as strongly at the other side of the globe among the aborigines of the new world. The coming of the Spaniards had been prophesied to the Mexicans by their caciques, and the prophecies were sung amid loud lamentations at their festivals.—London Onlooker.

The Hot Wind From the Desert.

"Khamsin" is the hot wind from the desert which blows out of the Sahara upon Egypt. The word means fifty, from the idea that it lasts for fifty days. The "khamsin" is terribly hot and dry, and sometimes brings pestilence with it.

Her "No."

Tom—Bess said "No" to me last night, but I don't think she really could tell why she did it. Nell—Oh, yes, she could. She told me. Tom—Did she? Nell—Yes; she said she didn't think you'd take "No" for an answer.—Philadelphia Press.

About the Only Place.

A company of settlers in naming their new town called it Dictionary, because, as they said, "that's the only place where peace, prosperity and happiness are always found."

The notion of God which makes him a manufacturer of footstools, our enemies being the raw material, is still popular in some quarters.—Puck.

Chamberlain's Cough Remedy a Favorite.

"We prefer Chamberlain's Cough Remedy to any other for our children," says Mr. L. J. Woodbury of Twining, Mich. "It has also done the work for us in hard colds and croup, and we take pleasure in recommending it." For sale by W. F. Creighton and Richard Gibson.

DeWitt's Carbolized Witch Hazel Salve is especially good for piles. Sold by W. F. Creighton.

Really Worth Reading.

At certain times in the year, and particularly a month or two before the Christmas holidays, new books come into newspaper offices for review faster than any one man can possibly read and review them with justice either to himself or the books. He glances through them hastily, unless they are by noted authors, gets a salient point here and there and "writes them up" as best he can. Then he forgets all about them.

"A friend came to me one day and expressed his gratification at the way I had written up a new novel by a comparatively unknown author," said the literary editor of a Chicago paper.

"'You expressed my idea of it exactly,' he said. 'It is one of the remarkable books of the year. The plot is absolutely unique, the treatment of it is bold and original and the dialogue crisp and delightful. It will make a great hit.'

"'Well,' I said, 'if it is as good as all that I'll read it.'"—Youth's Companion.

How the Gems Rank.

In the gem kingdom the ruby, the diamond, the emerald and the sapphire constitute "the big four" and take precedence—and in the order named—of all other precious stones. The pearl is of course not a stone. It has a standard of its own. The expert test of the gem is its color, its degree of clearness and its perfection of cutting. Upon the last depends its brilliancy. In the diamond the "brilliant" cutting holds first place. The other stones are cut altogether differently—they are crystallized in different systems—in fact, they differ in another respect, the diamonds being a mineral carbon, the finer ruby (the oriental) a variety of corundum, the emerald a variety of beryl and the sapphire a colored variety of corundum. What is technically known as the "step cut" is an essential to bring out the fire of the last three.—New York Tribune.

How the Pulse Varies.

The human pulse has rather a wide range, but the general average may be put about as follows: At birth, 140; at two years, 100; at from sixteen to nineteen years, 80; at manhood, 75; old age, 60. There are, however, great variations consistent with health. Napoleon's pulse is said to have been only forty-four in the minute. A case is also related of a healthy man of eighty-seven whose pulse was seldom over thirty during the last two years of his life and sometimes not more than twenty-eight. Another man of eighty-seven years of age enjoyed good health and spirits with a pulse of twenty-nine, and there is also on record the curious instance of a man whose pulse in health was never more than forty-five, and, to be consistent in his inconsistency, when he had fever his pulse fell to forty instead of rising, as is usual.

Wrestling For Exercise.

Wrestling, the "microcosmos of gymnastics," is a fine form of bodily exercise for those who enjoy hard muscular work after the tedious business hours of the day and may be practiced—adapting it to circumstances—by the man of a ripe age as well as by the boy of ten or twelve, especially the form known in this country as catch-as-catch-can (which is about identical to one form of Swiss wrestling). I exchanged the Greco-Roman (or German gymnastic) style for this one about twelve years ago, and I was then over forty years old, and still enjoy it much if my opponent is of my own weight or a little lighter and if it is deprived of its potential roughness by a gentlemanly spirit of the partners.—New York Medical Journal.

Precautions of Old Time Doctors.

It was formerly the practice among physicians to carry a cane having a hollow head, the top of which was gold, pierced with holes like a pepper box. The top contained a small amount of aromatic powder or of snuff, and on entering the house or room where a disease supposed to be infectious prevailed the doctor would strike his cane on the floor to agitate the powder and then apply it to his nose; hence all the old prints of physicians represent them with canes to their noses.

A Marriage Warning.

In Germany all marriages have to be contracted before a register previous to the ceremony in church, which is optional. The law requires public notice to be given of the match, and this notice is generally exhibited in a box hung up at the town hall or other municipal building. The following official announcement appeared lately in a small town: "From today there is fixed at the town hall the new box, in which all those who intend to enter the married state will be hung."

Not Labor Lost.

The safe bore a paper stating that there was nothing of value within. Nevertheless the burglar blew the receptacle open, finding the statement correct. "Well," he remarked, gathering up his tools, "it's worth something to ascertain that there are still people who tell the truth."—Philadelphia Ledger.

The Opportunity.

Opportunity has all her hair on her forehead, but when she has passed you cannot call her back. She has no tuft whereby you can lay hold on her, for she is bald on the back part of her head and never returns.—Francois Rabelais.

The weakest living creature by concentrating his powers on a single object can accomplish something; the strongest by dispersing his over many may fail to accomplish anything.—Carlyle.

A JUDICIAL WARNING.

Justice Brewer of United States Supreme Court on Public Ownership.

There is this important difference between public and private indebtedness: The individual may mortgage his home or other property, and if the purpose for which the mortgage is given proves a failure the property may be lost to him, and on his death his heirs simply receive so much less than they otherwise would, but the indebtedness casts no burden upon them. It may wipe out his entire property and they receive nothing. To that extent they may suffer if a failure to inherit property can be called suffering. But public indebtedness is of a different character. It does not wipe out property now existing, but it casts a burden upon the industries and toil of those who come after us. Interest and principal are met by taxes, and taxes continue from age to age until the debt is paid. They who come after us, who may receive little or no benefit from the debt, are called upon to contribute the proceeds of their labor to its payment. In other words, while private indebtedness does not mortgage or incumber future industry and labor, public indebtedness does. And in piling up public indebtedness we too often forget that the future will have its burdens—that there will be demands upon it for expenditures. Improvements and conveniences corresponding to the life of that day will be needed. So that there is injustice in creating a public indebtedness for improvements which will be mainly available in our day and only to a slight degree of benefit to those who come after us. Indeed, generally speaking, it is fair to leave each generation to determine what amount of public burdens it will assume, and each should take care of its own public indebtedness.—Leslie's Weekly.

Electric Lighting Plants Short Lived.

During the past year the technical press has recorded the breaking down of a large number of municipal electric light plants because the equipment was worn out. It is interesting to note that in a large majority of cases the necessity for abandoning or renewing the plant came at a period of from ten to fifteen years after it had been installed, showing that the deterioration by wear alone amounted to from 7 to 10 per cent a year.

According to the municipal ownership advocates who claim that an allowance of 3 per cent for depreciation is adequate, these plants should all have lived for thirty years, yet wearing out is only one of the forms of depreciation, and most of these plants had been hopelessly out of date before their breakdown occurred.

Other cities may well take warning from the experience of these and make an allowance for maintenance and depreciation far in excess of the estimates of interested parties if they would avoid the thankless task of paying for broken down plants out of the tax levy.

Council Bluffs Rejects M. O.

The city council has turned down the municipal ownership proposition in connection with the city waterworks plant and voted to grant a new franchise to the water company, whose franchise expired some months ago. The action was taken after a monster petition, signed by almost every business man in the city, had been presented to the council asking that the municipal proposition be killed.—Municipal Journal and Engineer.

What Socialism Would Do.

The substitution of socialism, either absolutely or in a modified form, would be to strike down the best political system which has been thus far devised by the genius or wit of man, and it would undermine the last hope of the lovers of republican government in this world.—Vice President Fairbanks.

The soothing spray of Ely's Liquid Cream Balm, used in an atomizer, is an unspeakable relief to sufferers from Catarrh. Some of them describe it as a Godsend, and no wonder. The thick, foul discharge is dislodged and the patient breathes freely, perhaps for the first time in weeks. Liquid Cream Balm contains all the healing, purifying elements of the solid form, and is never fails to satisfy. Sold by all druggists for 75c., including spraying tube, or mailed by Ely Bros., 56 Warren street, New York.
